## About Me

Experienced Sr. Software Engineer with a strong background in full-stack development and a passion for creating scalable and efficient solutions. Skilled in React.js, Node.js, and AWS, with proven expertise in leading teams and delivering high-quality software. Eager to contribute to innovative projects and drive impactful results.

## Skills

- ReactJs
- NextJs
- TypeScript
- AWS
- Socket.io
- Communication
- NodeJs
- ExpressJs
- MongoDB
- PostgreSQL
- Firebase

## Education

### B.E. Computer Engineering

SCET, Gujarat technological University

2018 - 2022

CGPA 8.70

### HCS - Science Stream

Gujarat State Board

2016 - 2018

PR. 90.27

## Experience

### Sr. Software Engineer

Narola Infotech

June 2024 - PRESENT

- Designed and implemented scalable software systems, enhancing **application performance**.
- Led the end-to-end lifecycle of software development, including planning, coding, testing, and deployment.
- Developed secure web applications adhering to **HIPAA compliance and PCI** standards.
- Optimized APIs and back-end processes for **improved efficiency and reliability**.
- Refactored legacy code to enhance maintainability and reduce technical debt.
- Implemented robust security measures, such as **encryption** and secure authentication methods, to safeguard data integrity.
- Worked collaboratively on large-scale projects.
- Maintained clear and **effective communication** with clients, understanding their requirements and delivering solutions that aligned with their expectations

### Software Engineer

Narola Infotech

Jan 2022 - June 2024

- Collaborated with **cross-functional teams** to develop and deploy web applications.
- Built a **Customized Form Builder**, capable of seamless integration into any project.
- Researched and implemented application features using diverse methodologies to enhance application capabilities.
- Built reusable components and libraries to streamline future development efforts.
- Quickly adapted to new technologies, **consistently delivering high-quality results**.

### Internship Trainee

Krtya Softwares

June - August 2021

- Contributed to the development of new features for internal tools and systems.
- Gained hands-on experience with front-end and back-end technologies.
- Assisted with debugging, testing, and documentation to support the software lifecycle.

## Archivements

- React.js Certification, HackerRank
- Rockstar Rookie Award** by Narola Infotech
- Recognized as 'Employee of the Month' multiple times for delivering outstanding performance and innovative solutions.
- Implemented security protocols that reduced vulnerabilities and ensured compliance with standards.

# Projects

---

## Credit Repair Automate

Credit Repair Automate is an AI-powered platform that simplifies credit repair by automating critical tasks such as credit analysis, error detection, dispute letter generation, and mailing. The platform empowers users by streamlining credit improvement workflows, saving time, and ensuring accuracy.

**Technology Used:** ReactJs, Zustand, NodeJs, MongoDB

**Deployment:** AWS EC2, AWS Amplify, S3

**Third Party Integration:** DocuSend, SmartCredit Services

## HouseCallMD - HCMD Communication

HouseCall MD is an innovative telemedicine platform that enables secure virtual consultations with licensed providers. It allows patients to access healthcare remotely via live video, audio, chat, and messaging. The platform facilitates real-time communication and provider collaboration by supporting the sharing of patient records and consultations with specialists. HouseCall MD aims to offer accessible, high-quality healthcare experiences from the comfort of home or office.

**Technology Used:** ReactJs, Zustand, Socket.io, NodeJs, PostgreSQL

**Deployment:** AWS EC2, CodePipeline, AWS Amplify, S3

## EasyCollab

Developed a Dynamic SaaS CRM system to manage and maintain master data efficiently. The system centralizes customer information, ensuring data accuracy and consistency. Key features include robust data management tools, seamless integration with other systems, and enhanced reporting capabilities. This platform streamlines data handling, improves operational efficiency, and supports effective customer relationship management.

**Technology Used:** NextJs, Redux, NodeJs, MongoDB

## RiDiscovery

This application is designed to streamline the vulnerability assessment and management process for security testers. It empowers testers to efficiently gather and document all test findings, categorize them based on vulnerability severity, and track their resolution status.

**Technology Used:** ReactJs, NodeJs, MongoDB
